

A Full Training Path on AI and Education

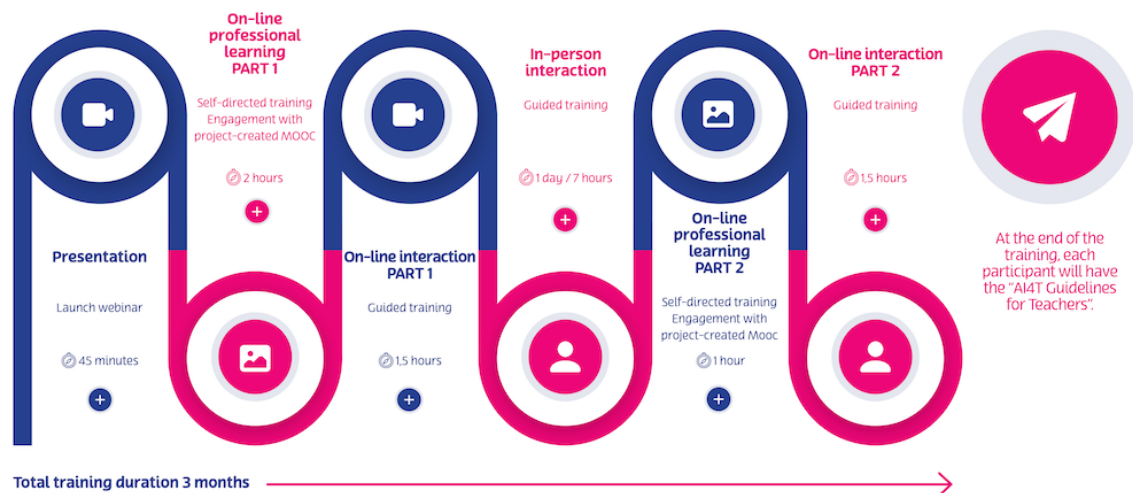

The full training path is designed and created for European teachers and school leaders to investigate, experiment and question themselves about the use of AI in Education. It extends over a period of 3 months and includes:

- the present online training course, designed as a Mooc, and consisting for now of 4 modules with a total duration from 2 to 3 hours,
- online training resources to go further on AI and Education,
- an online textbook,
- webinars to share practices and opinions,
- and guided trainings, in-person and online, for participants interactions with AI and Education experts.

The total duration of the training is planned for 3 months over a period from November 2022 to March 2023 depending on the countries involved in the experiment.

A graphical representation sometimes helps to understand how it is going to work.

How will the training and project process flow?

Welcome!
