

# Conditions of use of the content of the Mooc

## Terms of use

Developed by the partners of the AI4T consortium, all the contents of this Mooc are to be consulted and reused according to your goals and needs.

The AI4T consortium has therefore agreed on a licence that will allow many opportunities to use the Mooc content.

## Use of the educational resources of the Mooc

The **course resources** are, except otherwise specified, distributed under a [Creative Commons CC-BY 4.0](#) licence:

**Attribution.** The holder of the rights authorises any exploitation of the work, including for commercial purposes, as well as the creation of derivative works, the distribution of which is also authorised without restriction, provided that the author is credited by name.

## Notes for the national implementations

### Caution1:

If forums are implemented on local LMS/CMS, here is a proposition of conditions of use of the contents produced by participants:

### Conditions of use of content produced by participants

The content produced by the participants is, except otherwise specified, distributed under the [Creative Commons BY-NC-SA 3.0](#) Licence: **Attribution-NonCommercial-ShareAlike**. The copyright holder authorises the exploitation of the original work for non-commercial purposes, as well as the creation of derivative works, provided that they are distributed under a licence identical to the one governing the original work.

---

### Caution2:

If during the large scale experimentation phase you do not wish participants to share the resources (in consideration with the existence of the test group for example), do not forget to state it in your recommendations to participants.
